CHARTY OF SPEECH

Charity or speech is as thing as charity or action. to judge no one harshly, to misconceive no man's motives, to believe toings are as they seem to be until proven otherwise, to temper judgment with mercy-surely this is quite as good as to build up churches, establish asylums and found colleges. Unland works do as much harm as unkind deeds. Many a heart has been wounded be yond cure, many a reputation; has been stabled to death y a few attle words. There is a charity which consists in withholding words, in keeping pack barsa judgment, in abstaining from speech, if to speak is to conemn.

#### LIFE'S OPPOR. JNITIES.

Grover Cleveland thinks that there are other things more desirable than the presidency. In addressing the students of Arm ulture recent ly he said: "he opportunities today are greater than ever for boys to get a practical education-an industrial education and I would rather my own boy grew up able to build a great bridge like the prooklyn bridge than to receive the highest honor that the people could nestow on him. I hate to hear persons talk in a pessimistic strain to the effect that the day of opportunity in this country has gone by and that the chances for a young man to rine by his offorts nave passed It is not true. There is room at the top and there always will be.

#### THE PACE THAT KILLS.

The Fort Worth Telegram recently discussed the 'pace that kills." and was gratified that it was well received. It is hoped its words reached willing ears and that some change has been made in the life some young men were leading. The same subject has attracted the Rev. G. B. Vosburgh of Denver of the First Baptist church, who spoke on "Some Perils of Today." Speaking of the youth of that city he said:

"They drift away from the caurches or the sacred influences of home They frequent saloons, low places of alleged amusement and gambling dens, and so pass on to the criminal class with wrecked hearts and hopes, their parents going proken-hearted to lingers a few years longer to debauch himself and to disturb the peace of society which his presence poliutes.

There is a sermon in this brief paragraph, and a sermon which ought to be read by every young man of to day. Denver is not alone in having such citizenship. They are here, they are in every city. The future of a young man who leads such a life can be nothing but tailure and finally total wreck.

#### SOCIALISM AND ORGANIZED LA BOR.

The Colorado Springs Gazette says mat one of the greatest dangers that confronts organized lapor today is socialism.

It is not particularly menacing to the nation for there is no more chance of the American people adopt ing the various theories of govern ment of the socialists than there was of their adopting the attractive array of isms which the populists offered

There always has been and always will be a number of restless, dissatisfied people in this country, who are sure everything will go to the dogs unless some radical change in our principle of government is made. This negative element will continue to make itself heard under one party name or another, so long as government lasts. Its vote in this country is steadily increasing, and may reach the nigh-water mark of the populists but it is a foreign importation ant can never take permanent root in the free soil of America.

Socialism feeds on discontent Wherever a strike is in progress there will usually be found a rew of its agitators, conducting a recruiting station to draw off the irreconcilable

A large number of American work ingmet, have united under the banner of organized labor to setter their con dition, but after forty or fifty years of effort it has seen found impossible to align the wage-carners under one political fing.

It has failed because the average American is soo same and too healthy minded to join in any movement that tends to array the people of the country into two classes; he is too clear headed and too independent to per mit any organization to tell him how to vote. His interests are too nearly identical with the ausmess interests of the country to permit him joining any political movement whose object

is to destroy them. A political party, to have any meas ure of success, must be composed of people from al! wa.ss of life. the union men in the country belonged to the socialist party, they could accomplish nothing by their connection but to array all other men against them in .ne othe political parties, and this would surely mean defeat, for the total membership of organized labor is a very small por-

vide the american people into two field." opposing classes is sure to fail. And labor unions which have allowed themselves to get into the control of socialist leaders, to be used to exploit their theories, are doomed to failure

### AGAINST THE HEALERS.

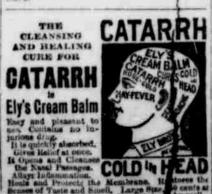

Dependence on faith healing in the se of sickness, where the patient is a child who has not arrived at the age of discretion, is criminal negisence in the opinion of the supreme murt of New York. Such in brief is the grave, while the degenerate son the decision in the case of a father who refused to call a physician to attend his 16-months-old child who was suffering from pneumonia, from which it died. Their province is simply to construe the law as enacted by the legislature. That law says a person who fails to perform a duty imposed upon him by tatute, to furnish medical attendance o a minor in his custody, is guilty of misdemeanor. This was not done by the father in this case, hence he is guilty of violating the law, irrespec tive of any religious belief he may

Tobacco is both cultivated and conamed on a large scale in Japan. The plant was introduced by the Portu guese in the seventeenth century, and the trade in it is a government monopoly. Tobacco is almost universally used in a small pipe. While cigarettes are manufactured in large quantities they are nearly all exported.

Artificial teets and "uppers" for boots and shoes are among the new uses to which paper is being put. At this moment a substantial business firm in Boston is considering a proposition to take up the work of manufacturing paper hats. By-and-by a high hat, wress suit and shoes rivaling patent leather, all made of paper, may be considered quite the proper thing.

More than 50,000,000 pounds of India rubber, valued at more than \$30,-000,000, were imported into the United States last year, according to figures prepared by the bureau of statistics. In 1890 the quantity was only 33,000,000 pounds, in 1880, 16,000,000; in 1870, 9,000,000; and in 1862, the earliest date which it was separately shown in the import statements, it was only 2,125,516 pounds.

It is not too much to say that durng these days through the Hearst newspapers, not less than seven to ten millions of people wal read favorable accounts of the people, the retources and possibilities of the territories. New Mexico has indeed reaon to be grateful for all this. It was in a manner make up for some of the abuse we received at the hands of the Severione committee and other senators last winter.

# WAR IN COURT.

There is a clash between the judge and district attorney of this judicial falls to cure. E. W. Grove's a'gnature district. The cause is of several months standing. District Attorney The Burlington, Kansas, Republican Clancy is a grand stand prosecutor. He is given to posing. He indulges in the habit of writing letters for the newspapers about alleged abuses in stead of prosecuting in the courts.

> Judge Baker yesterday in a letter to Mr. Ciancy calls upon that official to de his duty and prosecute. The judge

"The court is the proper tribunal in which to try such matters. If any officer of said county has appropriated. or misappropriated, any money be longing to said county, of which you Good Attendance But Excruciating! have knowledge or information, it is your duty to at once institute proper one escapes punishment."

that the judge has no right to "lecture game prizes and gate receipts. or instruct him as to the performance

of his official duties," and then he goes on and tries in his letter an alleged fraud upon the school fund, and finally throws the bame upon the county commissioners. He says that he has written the county commission ers, but has received no reply.

Mr. Clancy closes his letter by saying: "I am not at all satisfied that indictments could be obtained against these school superintendents. From my general knowledge of existing conditions, I have no besitation in saying at no useful purpose would be served by calding a special grand jury as you speak of doing, and the expense of such a grand jury would be large.

The Citizen cannot see why, if a theft has been committed, that it cannot be tried in the courts instead of in the newspapers.

The course of Mr. Clancy is liable to lead the people to believe that he is making a grand stand play for notoriety and political purposes.

### MATTERS MASONIC.

The Mason c Grand Lodge of New Mexico entered on its second day of session this morning. Some time was occupied in discussing a uniform crease during the year 2. work for the lodges of the territory, but no action was taken.

The chief event of the convocation was the election of grand officers which resulted, this morning, in the ollowing: E. A. Cahoon., Roswoll past grang master; J. C. Slack, Clayton, grand master; Geo. W. Ward Las vegas, deputy grand master; Jas. G. Fitch, Socorro, senior grand warden: A. N. Pratt, Carlsbad, junior grand warden; A. J. Maloy, Albuquerque, grand treasurer; A. A. Keen, grand secretary.

Of these A. N. Pratt is the only new blood introduced, the other officers being each promoted one step, except A. J. Maloy and A. A. Keen, who remain respectively grand treasurer and grand secretary, as they have been for years.

There was no question before the grand lodge of adopting a new constitution, as had been reported.

At the afternoon session the elected officers were installed and Grand Master Slack made the following appointments, they also being installed: Rev. Wm. D. Clayton, Albuquerque, grand chaplain; Geo. W. Grove, Albuquerque, grand lecturer; H. B. Holt, Las Cruces, senior grand deacon; J. W. Donavan, Raton, junior grand deacon; Thomas Murphy, Kingston, grand marshal; J. A.
